Institute for Development and Research in Banking Technology
(Estd. by RBI)

Post-Graduate Diploma in Financial Technology

IDRBT's one-year full-time flagship programme equips professionals on current and emerging technologies to accelerate adoption in Financial Sector. The program builds an industry-ready talent for financial institutions and their services partners, including IT/ITES, cloud, AI-driven and fintech firms. It develops both technical and essential soft skills, covering professional conduct, regulatory and policy ecosystems, corporate affairs and finance for non-finance professionals.
